ABOUT UNITY

Mancunian Unity FC are a not for profit organisation, founded in the Summer of 2019, the Club was established with clear goals and ambitions - to provide equal opportunity for women and girls to breakdown the barriers for females within the football world.

We strive to build an environment for women and girls of all ages to feel important and valued whilst ensuring football can be accessible and enjoyable for all.

We aim to build a full women's and girl's academy to provide a pathway for all of our players to have the best opportunity and foundation to achieve their dreams in football, no matter what those may be.

We aim to cover all levels of the female game, from the grassroots game to the Elite level.
